Strategic transition towards an integrated and reliable business model

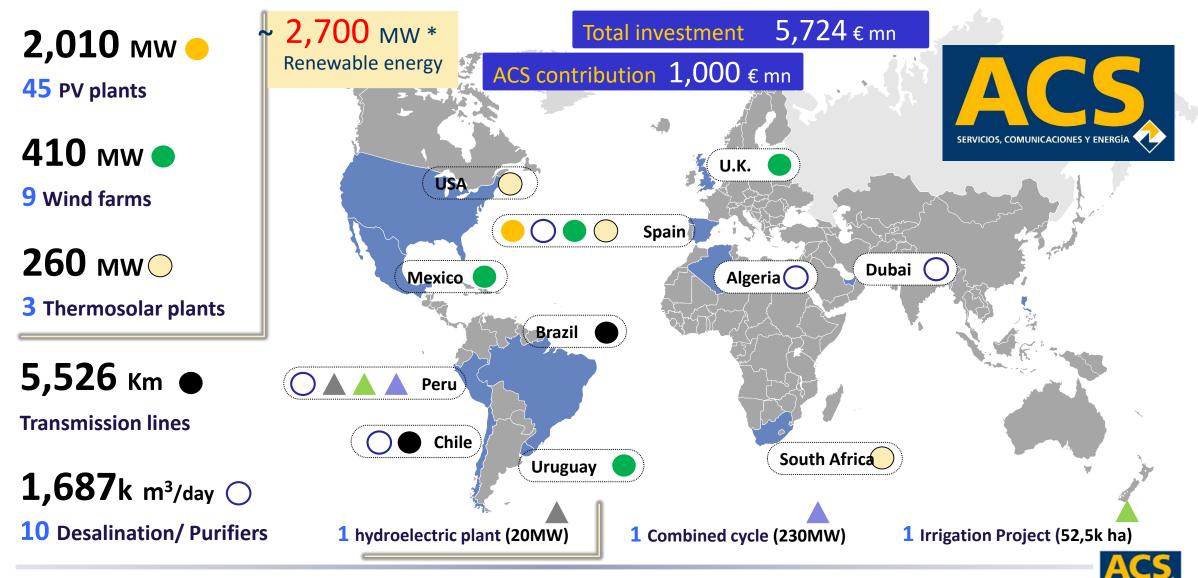

1. Chain value integration...

1. ... increasing investment in infrastructure concession projects...

1. ... and in energy assets...

1. ... where the Group has wide experience in green technologies

2. Transition towards a low-risk contracting model

Contracts with lower risks from development and execution of projects

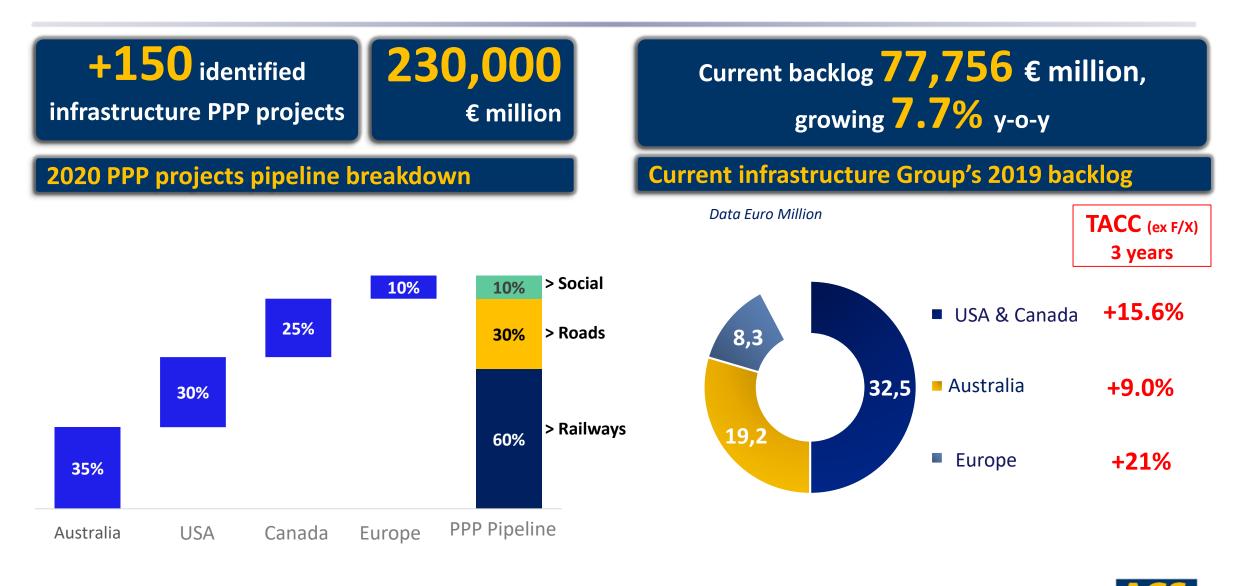

- ✓ Amended/complaints reduction
- More transparency in project execution costs
- ✓ Higher interest alignment among involved parties

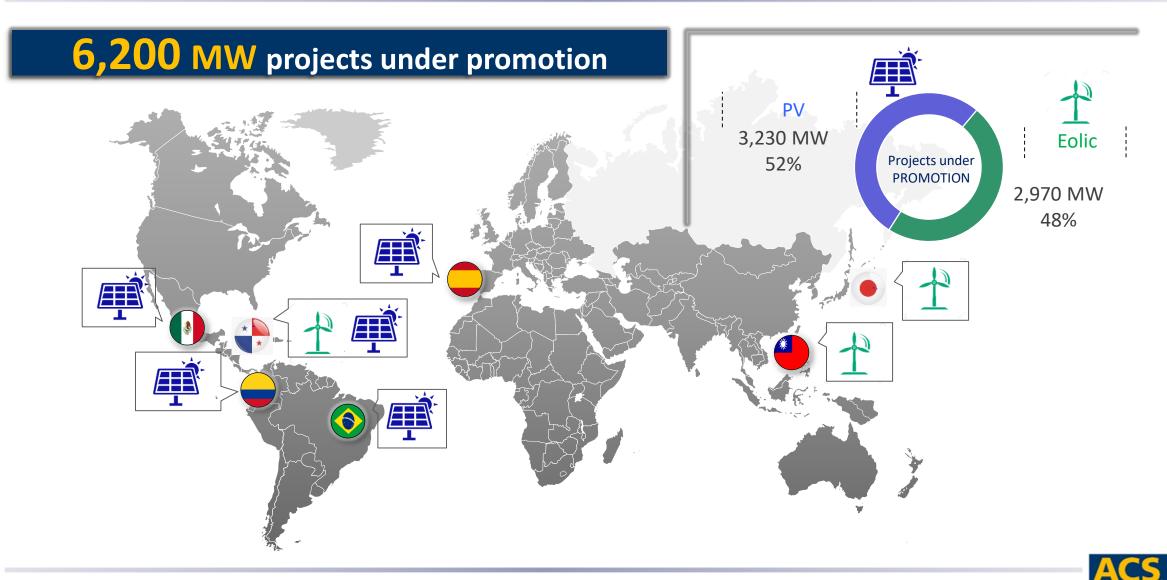

Reduction of expousure to large projects for third parties

Increase of PPP projects in JV

3. Focused on strategic regions with growth potential...

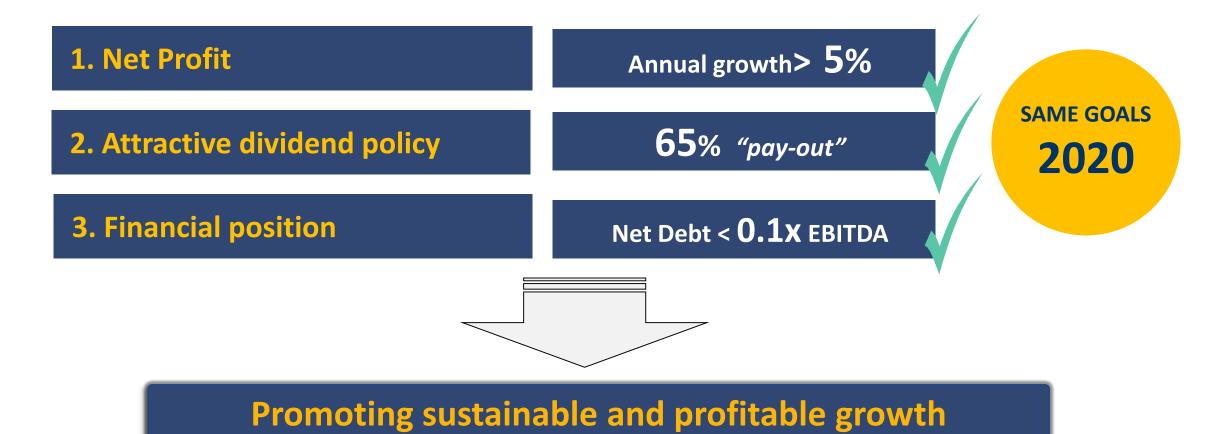

2 ... and growing areas: "Pipeline" in the renewable energy market*
