

5.9. TAX INFORMATION

ACS GROUP CORPORATE TAX POLICY

In 2015, the ACS Board of Directors approved the corporate Fiscal Policy, in accordance with which it aims to establish a collaborative relationship with the tax authorities based on mutual trust and transparency. In addition, the Group is committed to not creating artificial corporate structures unrelated to the Company's business activity for the sole purpose of reducing its tax burden or to generate a lack of transparency, and to not carry out operations between related companies aimed at reducing taxable bases and artificially transferring profits to low-tax territories.

All Group companies comply in every country with the applicable tax regulations in relation to transparency and tax information.

Tax Practices promoted by the Spanish tax authorities (*Agencia Estatal de la Administración Tributaria*) and, in application thereof, voluntarily provides the aforementioned Agency with the Annual Fiscal Transparency Report, with special emphasis on the Group's international composition, including information related to tax havens.

Therefore, the ACS Group's current policy is not to promote the creation of new companies in tax havens or low or no-tax territories (unless strictly necessary for the execution of works or physical facilities in the territories), as well as to commit to the gradual liquidation of the existing companies. Several entities which are residents of tax havens are in the process of liquidation.

In accordance with tax regulations in the majority of countries, profit is taxed in the country in which it is obtained, that is, based on the nature of the construction activity, in the place where the construction work or facility is executed.

Based on this criterion, the table below gives a breakdown, by country, of the taxes paid by the ACS Group for all items, pre-tax profit, and the subsidies received in 2020 and 2021 (amounts in thousands of euros):

TAXES PAID 2021

Note: Data for 2020 have been restated as a result of the sale of most of the Industrial Division to Vinci.

(*) Countries with taxes paid of less than 5 million euros.

(1) Significant deviations from the nominal tax rates of each country are due to the fact that the tax rules themselves generate differences between the tax in terms of payment and accrual, such as the application of tax credits for losses or the realization or refund of payments on account. These differences are offset in the long term.

(2) The OECD methodology includes Social Security contributions as taxes paid.

(3) The breakdown by country corresponds to the profit before taxes according to the consolidated income statement excluding results under the equity method and excluding the attribution to minority interests.

(4) Accounting consolidation items not objectively attributable to specific countries are included (mainly amortization of PPA Purchase Price Allocation of acquisitions) as well as results under the equity method (which, in accordance with accounting regulations, are presented net of taxes, since no further information is available since they are not companies controlled by the group), with no impact on the payment of taxes in any of them.

The ACS Group also participated in the Major Business Forum, which is the framework for collaboration between large companies and the Spanish tax administration and is

based on the principles of transparency and mutual trust, through the knowledge and sharing of any problems that may arise in the application of the tax system.

TAX RISK MANAGEMENT

As established in the Board Regulations of the ACS Group, the functions of the Board that cannot be delegated include the determination of the Group's tax strategy.

The Board is also responsible for approving the Group's General Risk Management and Control Policy and setting the acceptable level of risk at all times. These different areas also include the management of financial, non-financial and tax risks.

Within the Board, the functions of the Audit Committee include supporting the Board in the regular monitoring and assessment of the Group's Comprehensive Risk, Financial and Non-Financial Control and Management System, specifically:

- Ensuring that the different types of risks to which the Group is exposed are adequately identified and assessed, and that the level of risk considered acceptable is defined and set.

- Reviewing the measures established to mitigate the impact of the risks, compliance with regulatory requirements, adequate definition of the consolidation scope and proper application of accounting criteria.
- Monitoring the effectiveness of the risk management systems and directly oversees the internal risk control and management duties carried out by the responsible areas within the Group.
