The project SHERIFF “**HYBRID AND ECONOMIC SYSTEM OF FLEXIBLE FAÇADE REHABILITATION**” (file number IPT-2011-1239-380000) intends to develop, under the leadership of DRAGADOS (ACS Group), new tools to optimize the different stages of a building rehabilitation, such as the evaluation of energy performance of the existing façade ensuring energy efficiency after rehabilitation, optimization and improvement of rehabilitation systems and processes based on SATE and finally with the quantification of energy savings achieved and the short-term return on investment. For this development DRAGADOS counts on the collaboration of the client EMVS, three industrial partners INTECSA-INARSA, MAPEI, ROCKWOOL and two research partners CARTIF and Polytechnic University of Madrid. The project is co-funded by the Spanish Ministerio de Economía y Competitividad (**MINECO**) within the National Scientific Research, Development and Innovation Plan 2008-2011 (**INNPACTO 2011**) and the European Union through the **FEDER FUNDS** (Regional Development European Funds)
