

Building Materials

Building Materials	Total Weight Used (Metric Tonnes) (1)	% Recycled and/or re-used (2)
Wood	3,028,281.69	5.00%
Steel	556,425.63	67.53%
Concrete	4,331,233.55	14.52%
Aggregates	9,031,333.80	10.35%
Asphalt	1,668,679.06	14.07%
Cement	409,778.59	0.00%
Glass	114,245.87	0.59%

(1) The scope of the material used as a percentage of total infrastructure supply costs is 98.737 in the case of wood, steel, concrete and glass and 99.32% in the case of aggregates, asphalt and cement.

(2) The scope of recycled material as a percentage of total infrastructure supply costs is 97.61% for wood, 98.77% for steel, 98.06% for concrete, 97.1% for aggregates, 92.92% for asphalt, 100% for cement and 94.67% for glass.
