

ACS Group acquires an additional 25% of the A-13 road project in London, UK from AMEC Bravo Limited

Madrid, January 1st, 2019

ACS (through its affiliate Iridium) and AMEC announce the acquisition by ACS of an additional 25% of the A13 Thames Gateway PFI Project.

Iridium, a whole owned subsidiary of ACS Actividades de Construcción y Servicios, S.A., has completed the acquisition from AMEC Bravo Limited of the 25% stake of AMEC's, which will result in ACS-Iridium owning 75% of the issued share capital in Road Management Services (A13) Holdings Limited. The total enterprise value of the transaction is approximately 132 million GBP. ACS-Iridium has been involved in the development of the Project along its partners since its inception in the year 2000.

This transaction extends ACS-Iridium's active role in the United Kingdom, a well-developed PPP market and target market for the ACS Group. Specifically, the acquisition of an additional stake in the A13 manifests ACS-Iridium's commitment to managing and operating this asset actively, which is one of London's main arteries and only high capacity corridor located within East London's major urban development area.

The concession has up to 12 years of remaining life and has been financed with long term debt.

ACS-Iridium Profile www.iridiumconcesiones.com / www.grupoacs.com

Iridium Concesiones de Infraestructuras, S.A. is the ACS Group company which develops, finances, invests in, manages, operates, administrates, maintains, conserves, restores and equips all types of government concessions involving transport and public works infrastructure. ACS-Iridium manages more than 100 companies working in the construction/operation of various government concessions, making it the world's leader in developing, financing, building and operating every type of infrastructure in the main geographic markets of the world, including a significant presence in the North American market.

Iridium Concesiones de Infraestructuras is 100% owned by ACS Actividades de Construcción y Servicios.

The ACS Group is one of the world's most important construction and service companies. It is involved in the development of sectors that are key to the economy, such as infrastructure and energy. The company is committed to the economic and social progress of the countries in which it operates.
